

## About Brantner

**Innovation from tradition.** With a workforce of over 2,500 in the year 2017, the BRANTNER Group founded in 1936 by the BRANTNER family ranks among the most successful waste management and logistics companies on both a national and international scale and is already under third-generation management in Krems, where the company was founded. The BRANTNER Group is represented in 6 countries with shares in and joint ventures with a total of 60 companies and handles waste management for more than 1,000 authorities and cities, plus that of over 30,000 companies in trade and industry, both home and abroad.

"We shall remain true to our principle, also in the future, of identifying the needs of an ever changing society and a sensitised environment early on and shaping our service portfolio in line with this with the help of new waste management concepts and ultramodern technologies. After all, our success is based on the lead we have," emphasises Managing Director Bernd Brantner.
